Amazing Revelations
Amazing revelations are promised in the probe of senator Nye's committee into the munitions industry, to begin in two months. Bizarre stories of the methods of some of the big-time munitions makers are being brought to light. The ruthless pitting of nation against nation; the crushing of disarmament conferences; the suppression of peace; the slaughter of youth to provide profit—all these will be investigated.

Facts concerning the Wendt family—Yvonne Wendt in Germany and De Wendt in France—are slated for the coming American munitions makers are to be summoned.
The probe will no doubt do the cause of peace great good. Our age is too far advanced from barbarism to allow the sacrifice of the flower of youth for the greed of a few.

Independence Day, 1934 finds independence sorely tested all over the world. The United States, England, and a group of smaller countries are its last vestiges. The trend is definitely away from democracy.

And here in America some good old time Fourth of July oratory could be relished.
In a modern complex society, one need not expect the complete liberty of conduct of a pioneer country. The problem of democracy in an industrial age is the most vexing of government.

This Fourth of July, we might point to the fact that traditional American liberties are being clothed in the garments of bureaucracy. Yet the collective independence of our people has been remarkably maintained. As in 1776, America leads the world in civil, political and social independence.
It is the Hitler, the Brando and Mussolini's that menace individual rights, not the Roosevelt or Taggart or Wallace.
"And just as they started marching down the aisle, the lights went out."
"Did they have the wedding anyway?"
"Oh yes, that widow knows her way down to the altar in the dark by now."

In a little bit, he returned and said: "A little bit, he did benefit them. If it does not benefit YOU, consult a physician. Sold in 10 bottles."

AND UP, F. O. B. FLINT, MICHIGAN

CHEVROLET When Chevrolet announced price reductions several weeks ago, something important happened . . . something of vital concern to every buyer of a low-priced car: Chevrolet stepped into the most favorable price position it has enjoyed in a long time!
Reductions amounting to as much as \$50—the most substantial price cuts announced in the low-price field this year—dropped Chevrolet's base price to a new low figure of \$465. Just compare this price—compare any Chevrolet price—with those of other cars. Then compare what you get for what you pay! There'll be no question in your mind which car to buy, once you do.
Chevrolet offers patented Knee-Action—and others do not! Chevrolet alone has a Fisher body. And the same thing applies to cable-controlled brakes, Y-K frame, shock-proof steering, and 80-horsepower, valve-in-head, six-cylinder engine. Chevrolet gives you far more features—far finer quality—a far better name for dependability. Yet the price of the Chevrolet Standard is lower than that of any other six or, of course, any eight in the world.
